WORK EXPERIENCE

SOFTWARE ENGINEER

M. Moleiro Editor | June 2019 – Present

My role here is maintaining, solving issues and developing new functionalities for the 3 projects of the company:
– The website of the company (https://www.moleiro.com/es/inicio.htm)
– CRM (Customer Relationship Management) used by the Administration Department of the company
– CRM used by the sales staff of the company

In all 3 projects I worked as Full Stack, taking care of the Front End and the Back End. I also have Network responsabilities as managing our firewall (Sophos) and dealing with the internal users connections.

 Technolgies: HTML + CSS + JS, PHP + Composer, Silex, Smarty, Bootstrap, JQuery, MySQL
 Tools: Git, Github, Github Desktop, Jira, Confluence, AWS EC2, Windows Server, cPanel, VS Code
